DETAILED ACTION

Election/Restrictions

1. Newly submitted claims 62-94 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: The invention of the previously submitted claims and that of the claims 62-94 are unrelated because the process of obtaining the polyester particles are different.
2. Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 62-94 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.
3. This application is in condition for allowance except for the presence of claims 62-94 directed to an invention non-elected as discussed above. Applicant is given ONE MONTH or THIRTY DAYS from the date of this letter, whichever is longer, to cancel the noted claims or take other appropriate action (37 CFR 1.144). Failure to take action during this period will be treated as authorization to cancel the noted claims by Examiner's Amendment and pass the case to issue. Extensions of time under 37 CFR 1.136(a) will not be permitted since this application will be passed to issue.

The prosecution of this case is closed except for consideration of the above matter.
